

Rail 40

Modular steel shelving for rooms that have to earn their keep.

One rolled rail carries every shelf, so a bay reconfigures in ninety seconds — no bolts, no bracket bag, no second person holding the other end. Made in Cleveland from 1.2 mm cold-rolled steel.

WARRANTY

PLATE 01

Four-bay run at 2.4 m, shown with the 610 mm deep shelf and the tool lip fitted. Photography slot — product image supplied at 300 dpi.

THE SPECIFICATION

Model RL40-4B · revised January 2025

BAY WIDTH	1,200 mm (47.2 in), post to post	MATERIAL	Cold-rolled steel, 1.2 mm (18 ga)
SHELF DEPTH	460 mm or 610 mm, mixed in a bay	FINISH	Powder coat, 60 µm over zinc phosphate
HEIGHT	2,120 mm · 4 or 5 shelves per bay	COLOURS	Six stocked, RAL matched to order
LOAD	120 kg per shelf, evenly distributed	SHIPPING	Flat, two cartons, 34 kg per bay

WHY IT IS BUILT THIS WAY**No bolts, no bracket bag**

Shelves seat into the rail's rolled channel and lock under their own load. Move one in 40 mm steps without emptying the bay or finding the hex key.

Loaded where you load it

The rail carries at the post, not at the shelf edge, so 120 kg in the middle of a 1.2 m span deflects under 3 mm — measured, not estimated.

Finished, not painted

Sixty microns of powder over a zinc-phosphate pretreatment. Trolley scuffs polish out with a grey pad instead of chipping through to bare steel.

FOUR-BAY RUN, DELIVERED

\$1,240 / 2.4 m

Four bays, four 460 mm shelves per bay, sixteen shelves total. Stocked colours, no lead-time surcharge.

+ \$260

Each added bay, any depth

+ \$38

Extra shelf and tool lip

ORDERING

LEAD TIME	5 business days for stocked colours; 15 for a matched RAL
FREIGHT	Included over \$900 in the lower 48; curbside, one carton pallet
RETURNS	90 days, assembled or not — we pay the return freight
WARRANTY	Ten years on the rail and posts, structural and finish

IN USE

A sample of runs shipped since 2019

Northwind Coffee Roasters	18 bays	Green-coffee store, Portland — 60 kg jute sacks stacked two high on the deep shelf, Bone finish.
Acme Studio	6 bays	Sample and paper stock, Brooklyn — mixed depths in one run, reconfigured twice a year for print seasons.
Container Co. · Cleveland	40 bays	Our own returns line, running since 2019 on the original shelves. Signal Red, because we had it.

Order direct, or ask for a sample panel.

A 300 mm coated panel and a length of rail ship free, anywhere in the lower 48 — put a loaded pallet jack into it before you buy forty bays.
